Signage	See C	See Chapter 23-8		

City of Austin Land Development Code | Public Review Draft January 2017

- (B) **Additional Impervious Cover.** The Building Official may approve impervious cover up to 55 percent on a lot after determining that all of the following requirements are satisfied:
 - (1) The principal use of the lot must be a residential use:
 - (2) The lot must be included in a plat that was recorded before January 2, 1989:
 - (3) The lot must adjoin open space, including a golf course or regional park, and the open space:
 - (a) Must not contain a significant amount of impervious cover;
 - (b) Is not be likely to be developed with a significant amount of impervious cover;
 - (c) Contains at least twice the area of the adjacent lots; and
 - (d) Is not be separated from the lot by an impervious barrier, including street pavement or a paved plaza.
 - (4) A variance from a required setback must not have been granted or requested and the owner of the lot must agree not to request a variance from a required building setback; and
 - (5) A development intensity transfer affecting the open space must not have been granted.
- (C) **Exceptions for Affordable Units.** Developments in the LMDR Zone may qualify for a density bonus or other incentives if the development meets the applicable provisions of Chapter 23-3E (Affordable Housing Incentive Program).
